

- Shares genetics with EMS 2168, earlier and better drydown
- Excellent late season standability
- Excels on moderate soils
- Top notch conventional option for the north

Position as a stable hybrid for stressed and marginal ground. Has shown some very good promise in Northern Wisconsin. A lighter kernel texture than 2168 but a kernel processor is still recommended for silage.

EMS  
Brand  
Hybrids

Plant Height.....	Medium-Tall
Ear Placement.....	Medium
Silage Appeal.....	Fair
Cob Color.....	Red
Ear Type.....	Flex
Kernel Rows.....	14-16
Optimum Planting Population.....	26-32,000 ppa
Grain Quality.....	Good
<u>Regional Adaptations</u>	
West.....	Excellent
Central.....	Excellent
East.....	Good
