

EMS 8599 Brand

85 R.M.

2030 Heat Units
to Black Layer

- Robust, showy plant
- Rock solid agronomics
- Great staygreen with quick drydown
- Excellent dual purpose hybrid
- Will yield with the best 83-85 day hybrids
- Very good stress tolerance

Extremely adaptable hybrid that will perform across a wide range of soils. Has shown very good husk flare that results in quick drydown. Position as a workhorse hybrid that will still yield extremely well in good conditions. Has shown decent tolerance to wet feet. A must have hybrid.
